

Siemens Financial Services Accelerating sustainability across all industries

Financing to transform the everyday

At Siemens Financial Services, we provide financing that makes a difference by combining technology know-how with financing expertise to support our customers across their key sustainability transformations.

**Decarbonization
& energy efficiency**

**Resource efficiency
& circularity**

**People centricity
& societal impact**

Supporting the energy transition with tailored financing of wind, solar, battery

Financing of distributed energy systems, green hydrogen, microgrids, eMobility

Financing of smart buildings, equipment, software and energy efficiency solutions

Supporting asset re-use, re-marketing and lifecycle management and dematerialization

Financing hospitals and sustainable infrastructure of campuses and schools

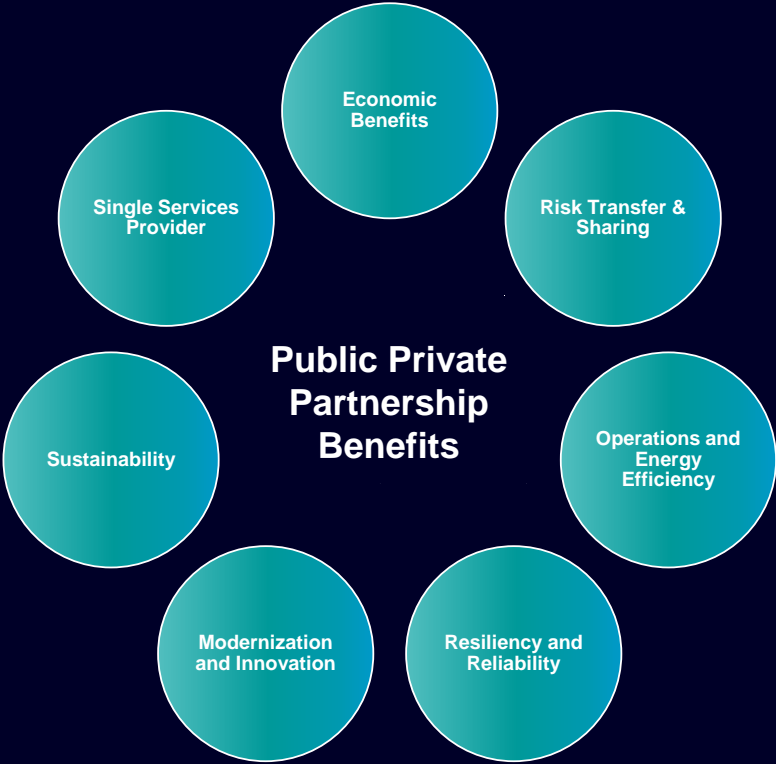

Financing sustainable food and clean water supply to the benefit of people and planet

At Siemens Financial Services, we provide financing that makes a difference by having the right financing solution for your needs.

**Equity Finance -
PPPs for Campus Community
Decarbonization**

**Commercial Finance –
Energy Performance Contract
Financing**

**Debt Finance -
\$100 million Kickstarter for
Decarbonization of U.S. SMEs**

Fund facility upgrades, energy efficiency and renewables through energy savings.

Leverages federal funding, grants and tax credits as additional financing sources.

SMEs, which often lack the same access to capital as large corporations for sustainability improvements, make up 99%+ of the economy and can have an outsized impact on the country's ability to meet national and global climate goals by implementing sustainable processes.
